DETAILED ACTION

Allowable Subject Matter

Claims 1-10, 13-16 and 18-21 are allowed.

Reasons for Allowance

Claims 1-10, 13-16 and 18-21 are allowable because there is no prior art of record that either teaches or suggests a liquid crystal layer or method of making an alignment layer on a wall of liquid crystal cell comprising the specific limitations recited in the following claims:

Claims 1 and 13:

- multiple local zones of a layer of material are exposed to radiation, the oblique angle of the radiation being uniform within each local zone but different between two or more zones, by interposing a microelement array between the source of the radiation and the layer of material to generate locally different oblique radiations on the multiple zones in one radiation step.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
